Dear George:

Thank you! You did a great job on my '76 Olds. The tune-up you gave the car not only makes it run much smoother but I'm also saving gas.

You also found the transmission leak so there's no more loss of fluid and no more slippage. I was afraid I needed a new transmission.

Annnnd - the bill was less than your estimate. That's unheard of, isn't it.

Thanks, again, George. I'll be back.
